NE66 2GD			

* these two fields are used to populate the titles of the template worksheets

4. Declaration

I hereby apply for a licence to fell trees described in the Woodland Management Plan and associated Plan of Operations referenced above.

- I am the applicant, or an agent acting on the applicant's behalf, and have sufficient control over the land on which the trees are growing to fell the trees with or without the consent of any other person.
- Any necessary consent from any other person(s), if required, has or will be obtained.
- I am aware of the Good Practice to safeguard European Protected Species during forestry operations and the need to obtain a licence if I cannot comply with the Good Practice.
- I have considered the impact felling proposals will have on the area and diversity of habitat(s) for wild birds and legal protection given to wild birds, especially during breeding season.
- I have made the necessary checks with the local planning authorities regarding Tree Preservation Orders and Conservation Areas and Historic England regarding Scheduled Ancient Monuments.
- To the best of my knowledge and belief the information given in the Management Plan and associated Plan of Operations and felling maps is accurate and complete.
- I agree to any disclosure or exchange of information about this felling licence application with other organisations or consultees which the Forestry Commission considers necessary for the administration, monitoring, evaluation and publicising of the application or licence. Details may also be passed to successors in title to this land. I agree that information about the application, including that contained in the application or approved licence and any other relevant documentation may be made available to the public.
- I understand that the Forestry Commission will consider this felling licence application as an application for their Opinion, where appropriate (if this has not already been given) under Regulation 5 of the Environmental Impact Assessment (Forestry) (England and Wales) Regulations 1999.

I have read and understand the above declaration.

Yes

Date:

08/04/2026

Print Name:

Alexandra Verity Lowrie Williams

5. Data Protection

The Forestry Commission is registered as a data controller under the Data Protection Act 1998 (Registration No: Z6542658). The Forestry Commission's personal information charter is published on its website: <https://www.gov.uk/government/organisations/forestry-commission/about/personal-information-charter>

The purpose of holding your contact information and woodland detail is to enable communication regarding your woodland and associated activities. Personal information will be held for 1 year after the end date of your approved plan and /or felling permission plan. Spatial information will continue to be held as a long term historical record of woodland management activity. This data will be held and managed by Forestry Commission England and will not be shared with any third parties. We cannot accept an unfunded plan submitted without contact details, as we require these details to allow us to progress a Felling Licence.

Do you consent to us holding your personal details for these purposes?

Yes

If you wish to withdraw consent you can do so at any time by contacting FS England in writing. You have a right to lodge a complaint with the Information Commissioner's Office: <https://ico.org.uk/>
